Art Unit: 1775

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation on claim 20 is not disclosed in the original disclosure. The Applicant's arguments filed 3-5-03 have been fully considered but they are not persuasive. The new limitation is not disclosed in the original disclosure. When one reads about silicon from the specification, one of ordinary skill *might* infer what is suggested but the broad limitation is not explicitly disclosed. The new limitation is dependant many factors including the amount of at least one metal within the film and or how the composite is made.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1775

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
